

Share the Fun with #MileHiCon

We love seeing your photos and videos! Use our official hashtag **#MileHiCon** when posting your cosplay, panel highlights, and haul on TikTok, Instagram, and social media.

1. Vendors Room & Art Show Protection

- **Art Show Blackout:** Photography and video recording of any kind are **strictly prohibited** inside the Art Show room to protect the original work of our creators.
- **Vendor's Room Permission:** Always ask vendors for permission before photographing their tables or merchandise.

2. Smart Glasses & AI Wearables

- **AI Glasses Restricted:** The use of smart glasses, AI-assisted eyewear, or any wearable tech with built-in cameras (such as Meta Glasses or Apple Vision Pro) is **strictly forbidden** inside the Art Show, vendor's room, anime/video rooms, panels, and restrooms unless you have received permission from the chairs due to an accessibility need. Persons with this accommodation will have badge lanyards of a different color than the standard black.
- **Recording Indicators:** If worn in general hallways, recording indicator lights must remain visible; recording anyone without their knowledge will result in immediate badge removal.

3. Photography Equipment Limits

- **No Large Gear:** To keep walkways clear and safe for all attendees, large photography equipment is **not permitted** in the convention spaces.
- **Banned Items:** This includes **tripods, monopods, ring lights, softboxes, and standalone light stands**.
- **Handheld Only:** All photography must be handheld or utilize a compact, attached on-camera flash.

4. Cosplay Consent First

- **Ask First:** Always ask permission before taking a photo or video of an individual cosplayer or attendee. **Cosplay is not consent.**

- **Respect Boundaries:** If someone says no, or if their cosplay makes it difficult to pose, respect their choice immediately.

5. Panel & Event Recording

- **Short Clips Only:** You can record up to **30 seconds** of panel footage for social media sharing.
- **No Full Streams:** Live streaming or recording entire panels, workshops, or guest discussions is strictly prohibited.
